Sharpshooter       Expert       Master

**POSITIONS FIRED-** Our league allows members to substitute a more difficult position for a less difficult position. Example: The PRONE position may be shot using a sitting, kneeling, or offhand position, etc. Any member may voluntarily elect to shoot an alternate position but it will disqualify the shooter from that position's individual award at the end of season unless the shooter claims medical disability. Shooters claiming disability do so on an honor system and remain eligible for individual position awards. No medical proof is required.

If all four positions are shot **traditional** (prone, offhand, kneeling, sitting), please mark the TRADITIONAL box. If **alternate** positions are used, please mark the appropriate **position box(es)**.
